SMART FASHION RECOMMENDER APPLICATION

The screenshot displays the IBM Watson Assistant interface. On the left, a sidebar titled 'Conversation steps' shows a sequence of three steps: 1. 'Which account would you like to pull the funds from?' with options 'Checking acc...' and 'Savings acc...'; 2. 'How much of the bill would you like to pay?' with a 'Currency' option; 3. 'Let me confirm, you'd like to pay \$ [Step 2] from your [Step 1]. Is that correct?' with a 'Confirmation' option. The main chat area shows a customer's input: 'Enter phrases that a customer types or says to start the conversation about a specific topic. These phrases determine the task, problem, or question your customer has.' Below this, a list of suggested actions is shown: 'Take care of my bill', 'Process payment', 'Pay my remaining money', 'Pay my card', and 'Pay bill'. The interface also includes a 'Make a payment' header and a 'Preview' button at the bottom right.
